

Turn it. Match it.

Draw a line from each left-hand shape to its match on the right. A turn or a different size does not change the shape type.

A		○	○		1
B		○	○		2
C		○	○		3
D		○	○		4
E		○	○		5

Then choose a pair and color both shapes with the same color.

You can also say or write the matches, for example A to 4.
